SAGNIK BEHERA

Data Science Student | B.Tech CSE (Data Science)

Keonjhar, Odisha, India | sagnikbehera30@gmail.com | linkedin.com/in/sagnik-behera-328b60435 | github.com/Sagnik267

SUMMARY

B.Tech Computer Science Engineering (Data Science) student with hands-on experience in database management using MySQL, along with Python and SQL. Comfortable with data preprocessing, exploratory data analysis and model development, and with deploying basic data-driven functionality in Python. Follows clean coding practices and keeps improving through practical projects.

EDUCATION

C.V. Raman Global University Graduation: 2027
B.Tech in Computer Science Engineering (Data Science)

Rabindra Vidya Niketan School (CBSE), Keonjhar, Odisha 2023
Class XII, Science - 68.80%

Rabindra Vidya Niketan School (CBSE), Keonjhar, Odisha 2021
Class X - 87.20%

TECHNICAL SKILLS

Languages:	Python (Intermediate - ML & Flask), SQL
Databases:	MySQL
Tools & Platforms:	Google Colab, Jupyter, Power BI Desktop
Core Skills:	Teamwork, Problem Solving

PROJECTS

Marketing Performance Dashboard Data Analytics Capstone Project

- Built a data analytics dashboard to track, analyze and visualize marketing campaign performance across channels.
- Collected, cleaned and preprocessed campaign, customer engagement, social media and website traffic data.
- Analyzed key metrics including click-through rate, conversion rate, customer reach and ROI.
- Created interactive dashboards for channel-wise comparison, engagement trends and marketing KPIs.
- Generated business insights, campaign reports and monthly summaries to support data-driven marketing decisions.

Marketing Campaign Analysis Power BI Desktop

- Collaborated on a Power BI project to transform, load and visualize marketing campaign data.
- Applied data cleaning and preprocessing techniques to prepare datasets for analysis.
- Implemented DAX measures: Total Purchase, Target Response, Campaign Profit, Percentage Success.
- Designed an interactive dashboard based on a reference layout, presenting customer response, revenue and campaign effectiveness.
